

Millennium

P A N E L S

NO ROT, NO GRAIN RAISE, NO WORRIES

BENEFITS OF MILLENNIUM PANELS

Resists checking, splitting and cracking
Resists moisture, rot and termites
Paints without grain raise
No knots or voids

Dimensionally stable
Environmentally friendly
Made for sustainable materials
No added urea formaldehyde

Millennium panels are engineered through a proprietary manufacturing process creating the only true exterior product of its kind. Millennium panels are rot, moisture and termite resistant and finish without the unsightly grain raise common in wood panels. This high performance material greatly enhances the performance of our shutter panels and will extend the life of your shutters. Millennium panels are standard on all our paint-grade panels for both our Premium and Elite series shutters.
